### Exposure Controls

**Engineering Measures/Controls**
- No special controls are required under conditions of intended use. Local exhaust ventilation should be provided when handling bulk product.

**Personal Protective Equipment**

* **Pictograms**
  - 🩺 ☠️

**Respiratory**
- In the event of a bulk spill, and where risk assessment shows that air-purifying respirators are appropriate, a NIOSH (US) or CEN (EU) -certified air-purifying respirator equipped with organic vapor cartridges may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits, when adequate oxygen is present and as a backup to engineering controls. Use a positive pressure air-supplied respirator if there is any potential for an uncontrolled release or any other circumstances where air purifying respirators may not provide adequate protection.

**Eye/Face**
- No special personal protection required under conditions of intended use. In the event of a bulk spill, appropriate eye/face protection should be worn.

**Hands**
- No special personal protection required under conditions of intended use. In the event of a bulk spill, wear rubber or nitrile gloves.

**Skin/Body**
- No special personal protection required under conditions of intended use. In the event of a bulk spill, wear appropriate protective clothing.

**General Industrial Hygiene Considerations**
- Handle in accordance with good industrial hygiene and safety practice.
