

Valeant Pharmaceuticals International, Inc. is making available today an enhanced rebate program to reduce the price of Nitropress and Isuprel for all hospitals in the United States.

All hospitals are eligible for the enhanced, rebate program, primarily through their respective Group Purchasing Organization (GPO). Hospitals that don't normally buy drugs through a GPO can access the rebate program by contacting Valeant customer service. Through these contracts, hospitals will qualify for rebates between 10% and 40% based on volume purchased during a calendar quarter. Beginning with (and including) the second quarter of 2016, hospitals will receive rebates through their GPO after the end of the quarter in which the purchases were made.

Below are the detailed terms of the enhanced rebate program we are implementing primarily through GPOs for Nitropress and Isuprel.

Isuprel Volume Tier Rebate Covered NDC's 00187-4330-01, 00187-4330-05	
Quarterly Purchases	Rebate %
1 unit - 10 units	10%
11 units - 20 units	20%
21 units - 30 units	30%
31 and greater units	40%
*1 unit equals 10x5ml ampule or 25x1ml ampules	

Nitropress Volume Tier Rebate Covered NDC's 00187-4302-02	
Quarterly Purchases	Rebate %
1 unit - 100 units	10%
101 units - 200 units	20%
201 units - 300 units	30%
301 and greater units	40%
*1 unit equals 1 vial	

If you have any questions concerning the program availability through your GPO, please contact Valeant customer service at **1-800.321.4576** or by email at **pharmcs@valeant.com**
